

Project # 9 !

The mission of the Latin American Mission Partnership is to further Christian relationships between churches of the Presbytery of Cayuga-Syracuse and the churches of the *H. Presbiterio Campechano* in order to learn from each other, grow in our faith together, and assist in mutual projects to strengthen our faith communities.

The partnership began in 2003 and since then has completed six visits that included various projects in Campeche, Central New York and on the Gulf Coast of Mississippi.

Since the beginning of the partnership the Presbytery of Cayuga-Syracuse has provided significant support through its Mission and Ministry funding. In addition, sixteen Presbyterian congregations throughout Central New York have been actively involved in learning about and participating in this partnership.
